ATN 8x20 SILVER EYE

TRAVEL MINI MONOCULAR

ATN's new Silver Eye mini-monocular is ideal for people who travel, attend sporting events, or take in cultural events.

At just 1.8 oz., the 8x20 Mono serves up wonderful image quality at a fraction of the size of standard binoculars.

Its compact size and light-weight not only offer convenient transport, but also easy storage within its soft protective case.

FEATURES:

- Super small, super covert, super optics.
- Fully coated lenses that provide bright images of high contrast and impressive quality
- The Silver Eyes diminutive size allows for covert surveillance and it is small enough to fit any pack or pocket.
- Convenient neck cord included
- Protective storage case included
