Do not let darkness impair your vision for a moment longer. Whether you are camping, boating, observing wildlife or surveying your property for intruders there is always a need to see in the dark. That's why at ATN we are proud to offer the perfect night vision device, the NightStar. Why is it perfect, you might ask? The answer is simple. The NightStar provides the user with superior clarity and a high light gain allowing the customer to see clearly even on the darkest of nights at a minimal cost. The unit comes standard with our Total Darkness Technology that allows you to see even in the darkest of conditions. The NightStar is perfect for camping, boating, or home security. Get out of the dark and into the light with the NightStar.
