**THE JAVELIN SERIES**

*lighting products*

At the forefront of the ATN Javelin series is our J169W that can be hand-carried or weapon mounted. It has a powerful 169 lumen halogen lamp and a triple anti-shock spring system. The ATN Javelin J169 flashlight is designed for any kind of environment or circumstance. Compact and durable the J169 is suitable for police, military, EMS, and civilian use.

The J169W is an anti-shock flashlight. It has a shockproof lamp assembly with triple anti-shock springs that can endure the repeated recoil of large caliber weapons. This helps prevent damage to the lamp and prevents the reduction of the lamp's life.

The J125 is a compact yet powerful flashlight, suitable for carrying during patrol duties or for the outdoor enthusiast. The J125 has a powerful high intensity 125 lumen halogen bulb.

The J125 is powered by (2) 3V lithium 123A batteries. In combination with the powerful Halogen bulb, 50 hours of continuous light can be achieved. The metal Halogen bulb housing is designed to withstand accidental drops and remain water resistant. During emergency the flashlights bezel can be used as a glass breaker.

The poly carbon lens will not discolor from the heat of the Halogen bulb and is scratch and impact resistant.

The J68 is identical to the J125 and has a powerful 68 lumen LED bulb.

**SPECIFICATIONS:**

	<b>J169W</b>	<b>J125</b>	<b>J68</b>
Power:	169 lumens	125 lumens	68 lumens
Lamp type:	Halogen	Halogen	Led
Battery type:	3v CR123A Lithium x 3	3v CR123A Lithium x 2	3v CR123A Lithium x 2
Length:	195mm	152mm	152mm
Weight:	300 g	400 g	400 g
